

# Professional Services

## Onboarding & Pre-Provisioning

### Account Implementation

A full account built for you, populated with your required starting spaces, channels, playlists, and content.

We'll invite all your users and create your teams with permissions. We'll also add themes specific to your brand, and create an folder system to help you stay organised

### Hardware Onboarding

We'll support your hardware setup.

## Technical Services

### Custom App Development

We'll create a bespoke application, tailored to your business needs, so you can display anything you need direct from your sources of truth

### Dashboards Creation

We'll setup any dashboards you need, so that your screens always have the latest data showing to the people who need it most

### Playgrounds App Development

If you need a simple integration from one of your systems onto your screens, we'll build it for you with our Playground App

## Training, Project Management & Premium Support

### Training

Dedicated online training sessions with our specialists, we'll teach you how to use Studio to its full potential

### Premium Support

A dedicated global team of Senior Support Engineers and Customer Success Managers committed to delivering higher SLAs, faster triage, faster resolutions, as well as engaging customers with streamlined service touch points to improve customer experience

### Project Management

We'll assign you a dedicated project manager to oversee the implementation of purchased services & rollout

## Creative Services

### Bespoke Canvas Designs

We'll create beautiful bespoke Canvas Templates or Designs for you, directly into your account

### Style Guide

We'll create a comprehensive style guide detailing some best practices for designing gorgeous content in ScreenCloud, specifically tailored for your brand
