We need to communicate value, we need to communicate opportunities and we need to connect with each other. And that’s what’s really cool about ScreenCloud.

What ScreenCloud and digital screens allow you to have is this instant connection. With just one click in Microsoft Teams, your message is where you need it to be. ScreenCloud is all about getting the right message to the right person at the right time.

Extend the reach and impact of your Microsoft content.

ScreenCloud integrates with your existing Microsoft Azure Active Directory, allowing you to break down data and use digital signage to deliver engaging content to everyone in your organization. From news, events and training to announcements and corporate culture, you can connect with your people in a whole new way.

John Voruz
Product Owner, Werner Enterprises

The digital signage we used before… it was very difficult for our IT function to manage, and deploy across multiple sites. Bringing ScreenCloud on means we could expand our use of screens, and seamlessly display production analytics from Microsoft Power BI.

Peter Shankland
IT Manager, Ricoh UK Products Limited

Empower your deskless employees to do their best work. ScreenCloud’s Power BI app allows for secure dashboard sharing via Microsoft Power BI, ensuring decision support data and actionable insights are surfaced in real-time to those who need it most.

John Henry

Keep your deskless employees informed and in the loop. With ScreenCloud’s Microsoft Teams app, publish the messages and quick updates you send in Teams straight to one screen, or thousands, in seconds.

Improve operational efficiency

Make your desktops enjoy all the benefits of ScreenCloud’s Vivavoce app, the microphones, automated and scheduled audio and video for everyone on the walls for everyone to see.

Improve productivity

ScreenCloud is the market-leading digital signage solution that enables you to share posts from your favorite Microsoft applications to the big screen – screens that communicate. Drive engagement, productivity and operational efficiency by giving everyone in your work and the Microsoft content in your systems.

ScreenCloud integrates with your existing Microsoft Azure Active Directory, allowing you to break down data and use digital signage to deliver engaging content to everyone in your organization. From news, events and training to announcements and corporate culture, you can connect with your people in a whole new way.

And much more…

We’re better together

We need to communicate opportunities and we need to connect with each other. That’s what ScreenCloud and digital signage allow you to have in this instant connection. With just one click in Microsoft Teams, you can connect with your people in a whole new way.
